About the PM² ALLIANCE

Member-driven and volunteer-led, the PM² Alliance is an international, not-for-profit organisation. Founded by PM² practitioners, the Alliance brings together individuals from institutions, companies and the academia to inspire dialogue, share resources, and address the field's challenges while promoting the wider

adoption of the PM² Methodology. The association supports the professional growth of its members by providing opportunities for lifelong learning, career development, and professional networking. The PM² Alliance offers volunteer opportunities for members and non-members alike.

About the PM² ALLIANCE

ONE METHODOLOGY – ONE COMMUNITY

We believe that the future of project management depends on the community of project managers working together, and that the PM² Alliance has a crucial role to play in enabling the sharing of knowledge and experiences and fostering appreciation of PM² as a common, open and free methodology for Europe – and beyond.

The PM² Alliance carries the torch of the Open PM² vision, promotes and evolves PM², and takes it to places “where no PM² has gone before”. It brings the Open PM² community together, connecting PM² practitioners, trainers, experts and project managers from all over Europe and works with other Institutions and organisations in promoting better project management in Europe.

Together we agree that the time has matured for the adoption of a common project language, a common project methodology.
